					Intuitive

Key Benefits

Speed. Accelerate time-critical tasks across incident Response to assess threats faster.

Empower more analysts.No training required with summarized results and intuitive tags within a simple dashboard.

/1/0m

Automation: Ingest data and easily integrate into in SIEM and SOAR to get search results - Splunk, PAN and others.

How It Works

Input the IP Address or Domain

Run Query/Search Query multiple or ranges of IP addresses and domains to view a communication timeline. Explore commonalities between IPs, identify compromised hosts, or reveal other attack vectors.

Scout Insight is a one-stop shop for all threat 10 investigations. I perform detailed IP and domain source analysis and see suspected threat tags on domains in 01 one platform without ever needing to leave the product.

Noah F.

Security Governance Analyst, Public Insurance Company

Pure Signal Scout provides a detailed and structured view of the queried IP address or domain. It is quite easy to use and has a very clean interface. I really like how it provides a visual of the timeline regarding the open ports, IP tags, etc.

Cyber Security Analyst

DISCOVER: Immediate access to enriched threat data at scale

No complexity or extensive training required. Simply select an IP to query, and summarized and curated results are immediately available for viewing. Enable more of the team to go faster, more of the time.

Everything in one UI

Summarized IP communications, WHOIS, X509 certs, ports, protocols and fingerprints

Powered by Pure Signal

Simplified insights across over 300bn IP communications, every day

Intuitive UI

Save time, money and precious resources with no costly or lengthy training required

PRIORITIZE: Faster triage for incident response times

A simplified search with essesntial information on the nature of IP or domain data for the past 30 days.

Insights on: Open ports, Domain, X509 certificates, fingerprints, and Whois with timeline visualizations along with tags and insights.

VALIDATE: Gain access to the world ś most trusted threat intelligence

Our reputation is unmatched for the fidelity, integrity and quality of threat related data to help reveal the malicious activity and infrastructure that impacts your organization.

Our real time platform gives you actionable intelligence that you can trust, enabling you to make decisions in the shortest time possible.

Simple to use

Search any IP address or Domain and receive easy to understand graphical results

Team Cymru's mission to Save and Improve Human Lives is fulfilled by empowering security teams around the world, to track and disrupt the most sophisticated bad actors and malevolent infrastructures. Powered by the Pure Signal™ platform, the largest source of context-enriched external threat intelligence, our Enterprise and Government customers gain real-time visibility of security gaps and malicious internet activity beyond network borders to proactively close detection gaps and accelerate incident response across organizations and third-party ecosystems. Its Community Services provides no-cost threat detection, alerting, DDoS mitigation, and threat intelligence to more than 140 CSIRT teams across 86+ countries. Learn more at https://team-cymru.com.
